### Cubitron™ II Fibre Disc 982C

### Cubitron™ II Fibre Disc 987C

Cubitron™ II Fibre Discs are made with revolutionary 3M precision-shaped ceramic grain technology, engineered with ultra-sharp, fast-cutting points that wear evenly, run cool and optimize mineral breakdown to maximize disc life.

3M™ Cubitron™ II Fibre Disc 987C is a precision-shaped grain disc that is designed for stainless steel metalworking applications such as weld grinding and beveling. The Fibre Disc takes time out of edge chamfering, beveling or removing stainless steel welds, mill scale, pits and imperfections, machining grooves and more in order to help deliver a lower cost per grind.

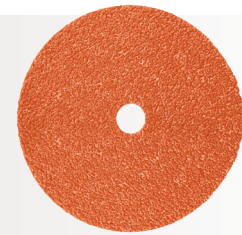

**FEATURES:**

- Precision-shaped abrasive grain
- Two times the life
- Fast cut
- Use wet or dry
- Complete carbon steel solution

**FEATURES:**

- For stainless steel metalworking
- Beveling or removing stainless steel welds
- Mill scale removal
- Edge chamfering
- Use wet or dry
- Complete stainless steel solution

### Cubitron™ Cut-Off Wheel

### Cubitron™ Cut-Off Wheel

3M™ Cubitron™ II Cut-Off Wheels feature 3M™ Precision Shaped Ceramic Grain for ultra-fast, cool cutting action and long life. It is specially formulated to be used on stainless and mild steel.

3M™ Cubitron™ II Cut-Off Wheels feature a 3M Precision Shaped Ceramic Grain to bring you an exceptionally fast-cutting and long-lasting wheel for use on almost all materials, including stainless steel, mild steel and aerospace alloys. This cut-off wheel surpasses 3M™ High Performance Wheels in both cut and life to deliver significant gains in productivity. Experience the power of 3M Precision Shaped Ceramic Grain to provide a cool, extra-sharp, quick cut long after other wheels are consumed.

**FEATURES:**

- Fast, cool cutting technology
- Premium performance
- Requires less pressure

**FEATURES:**

- Fast, cool cutting technology
- Premium performance
- Requires less pressure
- For grinding applications on stainless and mild steel

# 3M™ CUBITRON™ II DEPRESSED CENTRE GRINDING WHEELS

Feature a 3M Precision Shaped Ceramic Grain to bring you an exceptionally fast cutting and long-lasting wheel for use on almost all materials, including stainless and mild steels. Experience the power of 3M Precision Shaped Ceramic Grain to provide a cool, extra-sharp, quick cut long after other wheels are consumed.

*Put them to the test in your shop and experience grinding reinvented!*

## Depressed Center Grinding Wheel

The innovative precision grain technology in 3M™ Cubitron™ II Depressed Centre Grinding Wheels helps increase productivity by providing a fast cut and long work-life. It is specially formulated to be used on stainless and mild steel.

### FEATURES:

- Excellent product life and cut rates help increase productivity and throughput
- Cool cutting for higher quality
- Premium performance
- Requires less pressure

Model No.	Size	Type	Pkg Qty	A.C.T. No.	Special Price \$/ea. when buying Pkg Qty

## Depressed Cut and Grind Wheel

3M™ Cubitron™ II Cut and Grind Wheel T27 contains a precision shaped grain for a fast cut and long life. It is specially formulated to be used on stainless and mild steel for all cutting, grinding and back gouging applications.

### FEATURES:

- 3M Precision Shaped Ceramic Grain for ultra fast cut and long life
- Can be used as both a grinding wheel and a cut-off wheel
- Cool cutting for high quality and a fast cut
